

Services

MULTIWAYS offers a wide range of services to cater to the needs of both businesses and consumers. Our services are designed to provide a seamless experience and enhance productivity for businesses while offering unique and valuable experiences for consumers.

For businesses, we offer solutions ranging from distributed ledger technology to smart advertising and data analytics. Our services are designed to help businesses streamline their operations, increase efficiency, and optimize their performance.

MULTIWAYS offers a range of services to its individual customers. These services are designed to enhance the user experience and provide additional benefits to our smartphone owners. We offer a variety of services that allow them to earn rewards and bonuses by simply using their smartphones. Our services include everything from survey participation and content viewing to shopping and entertainment.

In addition, we offer cloud software services, after-sales support, and a VIP club for our customers to further enhance their experience with us. With our cutting-edge technology and customer-centric approach, MULTIWAYS is committed to revolutionizing the way businesses operate and individuals interact with technology.

We strive to provide innovative and reliable solutions to our clients and customers, while upholding our core values of transparency, integrity, and customer satisfaction. Our goal is to continually enhance and expand our services to meet the evolving needs of the market and to create a positive impact on the industry. We are committed to providing exceptional support and guidance to our clients and customers, and to fostering long-lasting relationships built on trust and mutual respect.

B2B services:

- **Private Ledger Service:**

Our Blockchain offers a secure and decentralized ledger system that allows our clients and partners to manage data in a tamper-proof and transparent manner. This service is based on the Proof of Authority consensus protocol, which ensures that only authorized nodes can add new blocks to the chain.

The distributed nature of the ledger means that it is resilient to attacks and failures and provides a high level of data availability and authenticity.

The Distributed Private Ledger system is designed to provide our clients and partners with a secure and trustless connection to our monetization programs. This system ensures that all contracted tasks are completed properly without our interference and eliminates the risk of fraud or unauthorized influence. Our distributed ledger technology is built with privacy and security in mind, allowing for seamless and transparent transaction processing while maintaining the confidentiality of our partner's data. This service ensures that all parties involved have access to accurate and tamper-proof records of the transactions, creating a reliable and efficient monetization system.

With the Distributed Private Ledger service, stakeholders can benefit from increased transparency, accountability, and security. The service can also help businesses reduce costs by eliminating the need for third-party intermediaries and reducing the risk of fraud, errors, and costs.

- Smart Advertising:

MULTIWAYS offers a smart advertising service to its business clients. Our smart advertising service uses data mining and analytics to deliver targeted and personalized advertisements to the right audience at the right time. This service enables businesses to maximize their advertising ROI and improve customer engagement.

- Mass Processing and Storage:

MULTIWAYS offers a mass processing and storage service to its business clients. This service allows businesses to store their data securely on our cloud-based servers and access it anytime from anywhere. Our mass processing and storage service also offers high-speed processing and rendering capabilities for 3D and visual content.

- Application Test Platform:

MULTIWAYS offers an application testing services to its business partners and clients. This service provides a secure and robust testing environment for businesses to test their applications before they go live. Our app test platform ensures the quality, security, and reliability of the tested applications.

- MEC-Enabled IoT:

MULTIWAYS offers a Mobile Edge Computing (MEC) enabled Internet of Things (IoT) service to business establishments and clients. This service allows businesses to connect their IoT devices to our MEC-enabled network and leverage the benefits of low-latency, high-speed, and secure connectivity. Our MEC-enabled IoT service enables businesses to innovate and transform their operations with the power of IoT without engaging in infrastructure and its running costs.

- Data Mining & Analytics:

MULTIWAYS offers a data mining and analytics service to its business clients. This service allows businesses to analyze their data and gain insights that can be used to make informed business decisions. Our data mining and analytics service provides businesses with a comprehensive view of their data and helps them identify patterns and trends.

- Survey Conduction and Reporting:

MULTIWAYS offers a survey conduction and reporting service to its business clients. This service allows businesses to conduct surveys and collect feedback from their customers. Our survey conduction and reporting service provides businesses with detailed reports and analytics that can be used to improve their products and services.

- Virtual Marketing Platform:

MULTIWAYS offers a metaverse and marketing service to its business clients. This service allows businesses to create immersive and engaging virtual experiences for their customers. Our metaverse and marketing service enables extended reality (XR) for businesses to leverage the power of virtual reality (VR) and augmented reality (AR) to promote their products and services.

B2C services:

- **Personalized Monetization:**

At MULTIWAYS, we understand that every individual has unique needs and preferences. To cater to this, we offer personalized monetization offers to our Daria BOND users. These offers are tailored to meet the specific requirements of each user and are designed to maximize their earning potential.

Our personalized monetization offers ensure that every user has the opportunity to earn rewards and bonuses that are relevant to their interests and capabilities. We believe that this approach not only benefits our users but also provides added value to our partners, who are able to target their audience more effectively.

At MULTIWAYS, we are committed to ensuring that our users have access to the most lucrative monetization opportunities. Our personalized offers are just one of the ways in which we are able to achieve this. We constantly update our offerings and utilities to ensure that our users can earn the most rewards possible, while also enjoying a seamless and hassle-free experience.

- **Simplified Monetization:**

In addition to our Personalized Monetization, we also offer Simplified Monetization to our customers. These applications provide an easy and hassle-free way for our customers to earn rewards and bonuses by completing simple tasks. The key difference between our Personalized Monetization and Simplified Monetization services is that the latter is more general and less personalized.

The tasks and rewards offered through these applications are not specifically tailored to individual users, but rather offer a range of options that can be completed by anyone with a Daria BOND smartphone. Our goal with Simplified Monetization is to provide an easy and accessible way for our customers to earn rewards and bonuses, without the need for extensive personalization or customization. This allows us to reach a wider audience and provide value to all Daria BOND owners, regardless of their specific interests or preferences.

- **Exclusive Discounts and Rewards:**

MULTIWAYS provides its customers with a wide range of exclusive discounts and rewards from various brands and partners. These discounts and rewards are specifically curated for Daria BOND users, providing them with a unique opportunity to save money and receive special offers on products and services.

Through this service, customers will have access to a variety of discounts and rewards across different categories, including fashion, electronics, travel, dining, and more. They will also have access to exclusive deals and promotions that are only available to Daria BOND users.

The service also offers personalized recommendations and notifications for customers based on their preferences and usage patterns. This ensures that customers are always up-to-date with the latest deals and promotions that are most relevant to them.

At MULTIWAYS International LLC, we believe in providing our customers with the best possible experience, and this includes providing them with access to exclusive discounts and rewards that are tailored to their needs and preferences. We hope that this service will further enhance the value and overall experience that our customers receive from their Daria Series of Blockchain adopted smartphones.

- **VIP Club and Metaverse:**

The VIP Club is a special program that provides exclusive benefits to Daria BOND owners. Our VIP Club offers exclusive access to special offers and products from our partners and third-party merchants, while our metaverse platform provides an immersive virtual environment for our customers to connect with each other and experience cutting-edge XR technologies. VIP Club members can enjoy benefits such as priority customer service, early access to new products, and exclusive discounts. Our metaverse platform also enables customers to participate in virtual events and experiences, including immersive shopping experiences, and explore new possibilities in virtual marketing.

- **Cloud Storage & Software:**

MULTIWAYS offers a suite of cloud-based services to enhance the functionality and performance of the Daria ecosystem. These services include convenient and reliable storage for important files and documents. Our cloud-based platform ensures that users can access their files from anywhere and at any time, with the added benefit of regular backups to ensure data security.

In addition to file storage, our Cloud Software Services also offer a personal organizer and task manager, allowing users to keep track of their schedules and to-do lists with ease. Our intuitive platform provides a customizable dashboard that allows users to prioritize their tasks and deadlines, set reminders, and receive notifications on their Daria ecosystem.

At MULTIWAYS, we understand the importance of productivity and organization in our daily lives, which is why we have integrated these features as a service. With the convenience of cloud storage and an efficient task management system, our customers can stay organized and productive on-the-go.

- **After-Sales Services:**

At MULTIWAYS, we believe that customer satisfaction is the key to success, which is why we offer comprehensive after-sale services to our clients. Our dedicated customer support team is available 24/7/365 to assist our customers with any issues or concerns they might have. We provide various services such as repair and maintenance, upgrades, troubleshooting, and technical support.

Our after-sale services include remote support, on-site repairs, and parts replacement. In addition, we offer regular software updates to keep our products up-to-date with the latest features and functionalities.

At MULTIWAYS, we are committed to providing our customers with top-notch after-sale services to ensure their satisfaction with our products.

- **Monetization Support:**

At MULTIWAYS, we understand the importance of a sustainable and profitable business model for our community. Therefore, we offer Monetization Support services to our customers to help them generate additional income through our blockchain ecosystem. Our team of experts provides comprehensive assistance in implementing monetization strategies tailored to the specific needs of our clients. From identifying revenue streams to optimizing user engagement and experience, we are committed to ensuring the success of our clients in the highly competitive market.

In addition to providing personalized assistance, our Monetization Support department also keeps our community up-to-date with the latest announcements, technical information, and content related to our ecosystem. We engage in moderation activities and provide training documents to our community through various channels of communication to ensure that our clients are equipped with the necessary tools and knowledge to maximize their earnings on our platform.
